

# API Ring Groove Caliper

The Most Economical & Easy Way To Check API Ring Grooves

**Unique Measuring Instrument**  
Designed specifically for oilfield industry.  
The Series of API Ring Groove Checker Inspect all types of API Ring seal Groove i.e RTJ's Groove. It is a modified form of vernier caliper. It can be used to check, OD, ID and pitch diameter of API ring seal grooves.

During RTJ's groove manufacturing, RTJ's groove checking is an important criteria. Our RGC Caliper reduces all the headache of checking RTJ's groove while machining. It saves rework & rejection cost of RTJ's groove by giving direct accurate reading. During machine of RTJ's groove we can save machine
